

YMCA of South Collier Marco YMCA

Full Day Program for students enrolled
in Collier Connect or e-Collier Academy
Programs

YMCA Virtual Education Support Program located in Marco Island at our Youth Development Center

Payment plan available for after
care hours as well!

At the YMCA, we are giving families another option for their child's academic education during the 2020-2021 school year. In this program, students will arrive to our facility ready to begin their virtual learning with trained child care staff to assist in school assignments. This option would be ideal for parents who still need child care, but are not comfortable having their child physically return to school with a face mask requirement. Although children will not be required to wear face masks or goggles; frequent handwashing, sanitizing, and social distancing will be encouraged.

We will offer:

- Daily snacks
- Daily schedule in alignment with virtual academy options
- Daily physical activities **for those enrolled on flex schedule*
- Enrichment **for those enrolled on flex schedule*
- Additional in-person assistance with school work and assignments
